New! "Campanula Blue Gardenia"

Now we offer this new and beautiful Gardenia type flower at lower prices! Even more beautiful than a true Gardenia. And remember that it is a perennial and will bloom for you year after year—**starts first year.**

You will find Campanula "Blue Gardenia" far more beautiful than the picture. The color is a delicate blue that we found hard to reproduce. Flowers occur almost the entire length of the stems and the stems grow to about 30 inches in height. Five to eight flower spikes are produced per plant. Foliage is beautiful dark green and leathery.

Long Blooming

Blooms from the middle of June to the middle of July. Flowers fine for cut flowers lasting a week or more after being cut. **Blooms first year.**

Hardy and Healthy

Insects do not seem to bother Campanula "Blue Gardenia" at all and it easily stands temperatures well below zero. Blooms year after year without replanting. Easy to grow in average garden soil with average drainage.

Horticulturists of wide and excellent experience have pronounced this plant one of the most outstanding and exceptional introductions in recent years. Every gardener should have it.

PRICES

Strong field-grown plants—BLOOM FIRST YEAR—1 for 65c; 2 for $1.10; 4 for $1.95.

Note: The name Campanula "Blue Gardenia" does not indicate that this plant is related to Gardenias. It is a Campanula with flowers of the same beautiful form as a Gardenia.

Hardy Perennial

IMPORTANT! Note that Campanula "Blue Gardenia" is not a biennial like most Campanulas, but a perennial—blooms year after year without replanting. Starts blooming the first year.

Shirley Temple

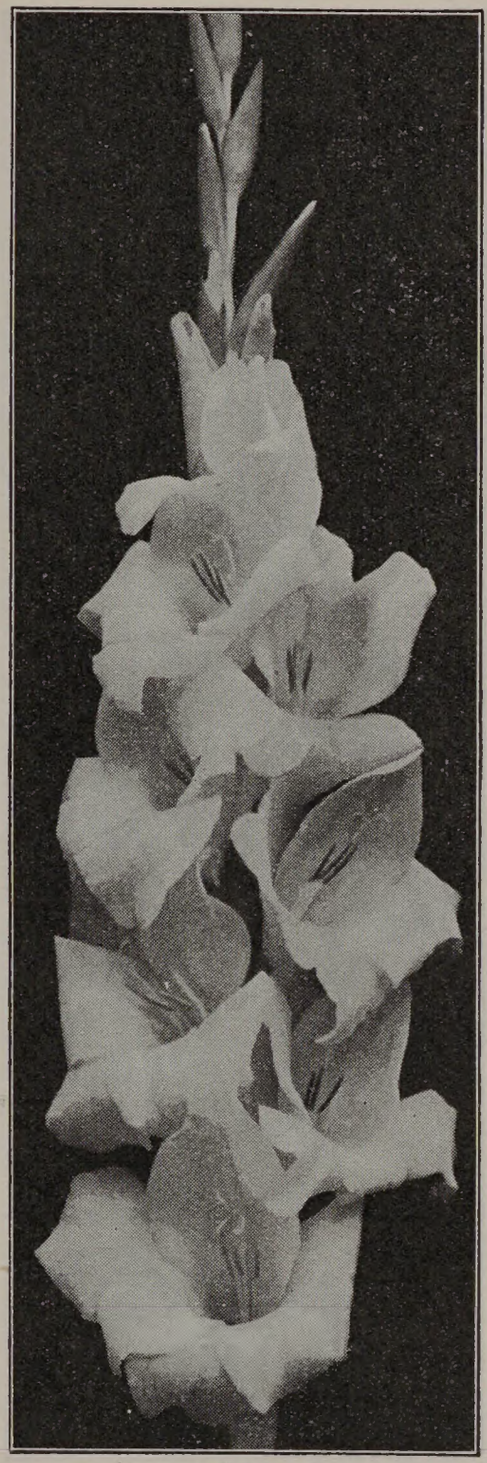
It takes a beautiful Glad and one that is very charming to merit the name Shirley Temple. This Glad does indeed earn the right to its name. The basic color is white but it is overlaid with a soft blush or cream color. The well placed blooms are heavily and beautifully ruffled with 6 or 7 open at one time. New but already in great demand. **PRICES: 35c each; 2 for 55c; 3 for 75c; 6 for $1.35.**

Ten Gladioli--New!

Cheerful

Cheerful

Cheerful is indeed a splendid name for this beautiful new variety. The color is a clear light red with a clean-cut splash of white. Spikes are tall, straight and medium slender, each with 8 or more blooms open at one time. Florets are ruffled beautifully and well placed. See the picture above. Always stands erect. Won blue ribbons as seedling. **Prices: 25c each; 3 for 67c; 5 for $1.00; 6 for $1.17.**



Iosco

Iosco

Name means "moonlight on the water" and is very aptly chosen. Color is delicate creamy yellow, somewhat like pure golden sulphur, but much lighter. Beautiful splashes of gold in throat, and faint splashes of very delicate rose here and there at edges of petals. We have never seen a yellow glad like this—never a similar shade, never one so beautiful. **Prices: 75c each, 2 for $1.35; 3 for $1.95; 6 for $3.75.**

Reflection

Reflection

Reflection is the finest lavender anywhere—color clear and unmarred by blotches, flecks or lines. One of the lightest of lavender shades, but deepens in color when brought indoors. Florets perfectly set, straight forward and close together, at least six open at one time. Grows to average height of 5 feet in three months. A variety to arouse the praise and comment of all who see it. **Prices: 75c each, 2 for $1.35; 3 for $1.95; 6 for $3.75.**

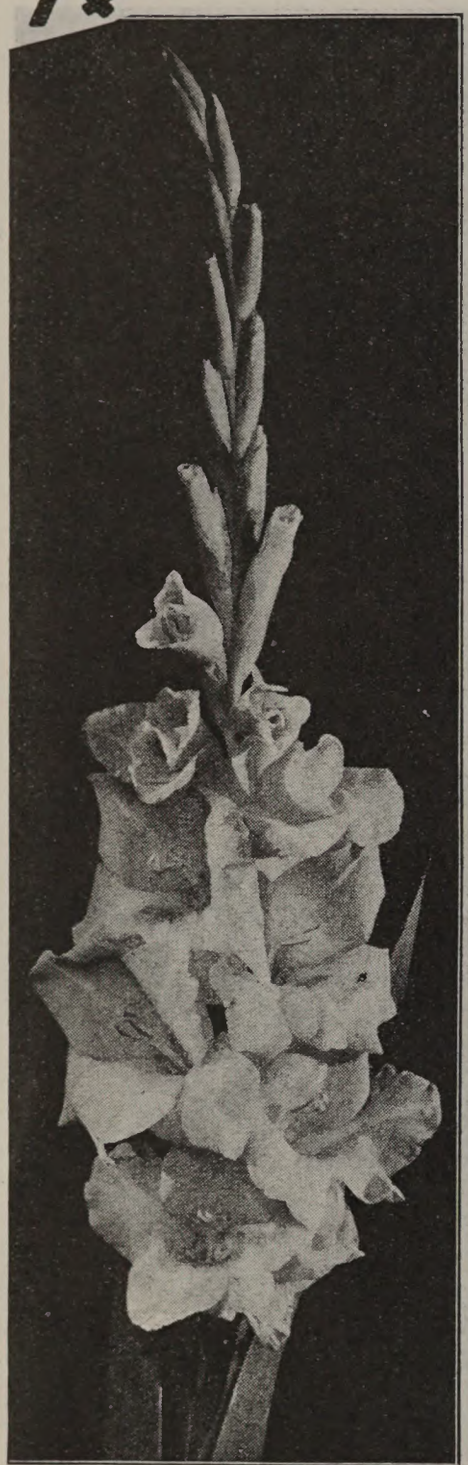
Kellogg's Tip-Top



Rose of Michigan

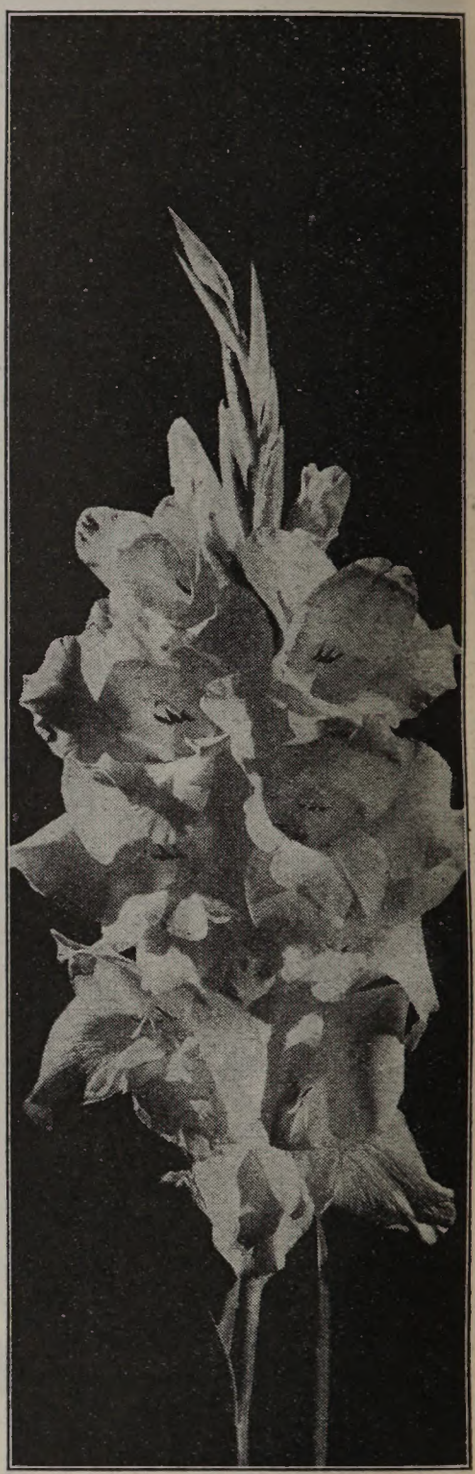
Rose of Michigan

Now this beautiful new glad comes as a mate to the beautiful Cactus Rose. Rose of Michigan is not a rival of Cactus Rose because it is a different shade—darker, and lined with velvet in the throat instead of being frosted—deep, dark red, plushy velvet. Nature's brush slipped here and there and made little splashes of red. It's beautiful! Sometimes compared to the American Beauty Rose in color. **Prices: 75c each; 2 for $1.35; 3 for $1.95; 6 for $3.75.**

Grand Master

Grand Master

Red—beautiful velvety red! Grand Master is the richest red you ever saw—smooth, soft and velvety. The only markings are very faint streaks of "black." The dark red extends into the deepest extremities of the throat with no shadings excepting the deep dark shadow. Florets open many at once and lap over each other, making a continuous mass of red that is amazing in its beauty. **Prices: 1 for 65c; 2 for $1.00; 4 for $1.85; 6 for $2.70; 12 for $5.20.**

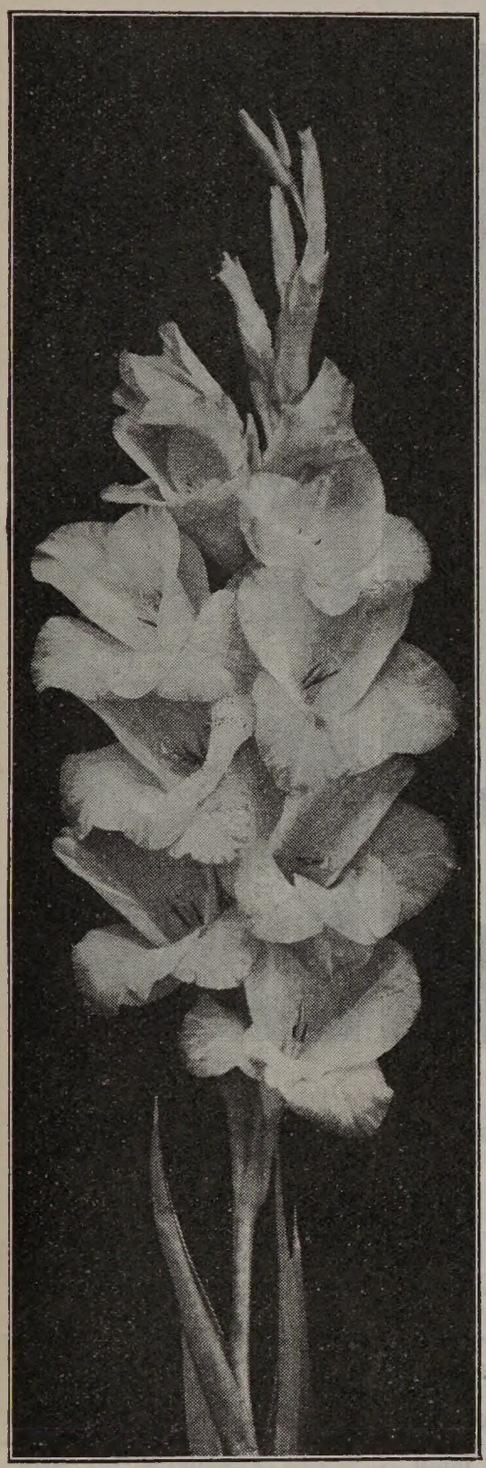


So Big

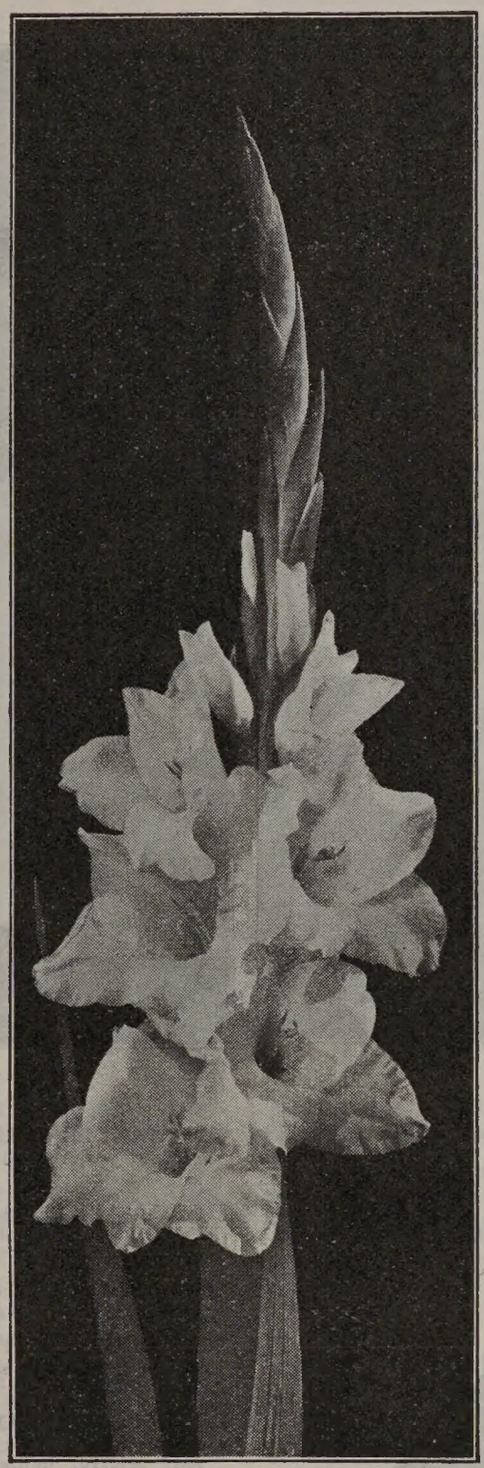
So Big

Again we have a variety that earns its name. So Big is one of the largest of all Gladiolus varieties. Both the flowers and the spikes are immense. And not only is it immense in size but it is immense in beauty. It is a deep rose-pink with violet markings on the lower petals, a beautiful effect that you cannot appreciate until you see it. A real prize winner. **Prices: 25c each; 3 for 67c; 5 for $1.00; 6 for $1.17.**

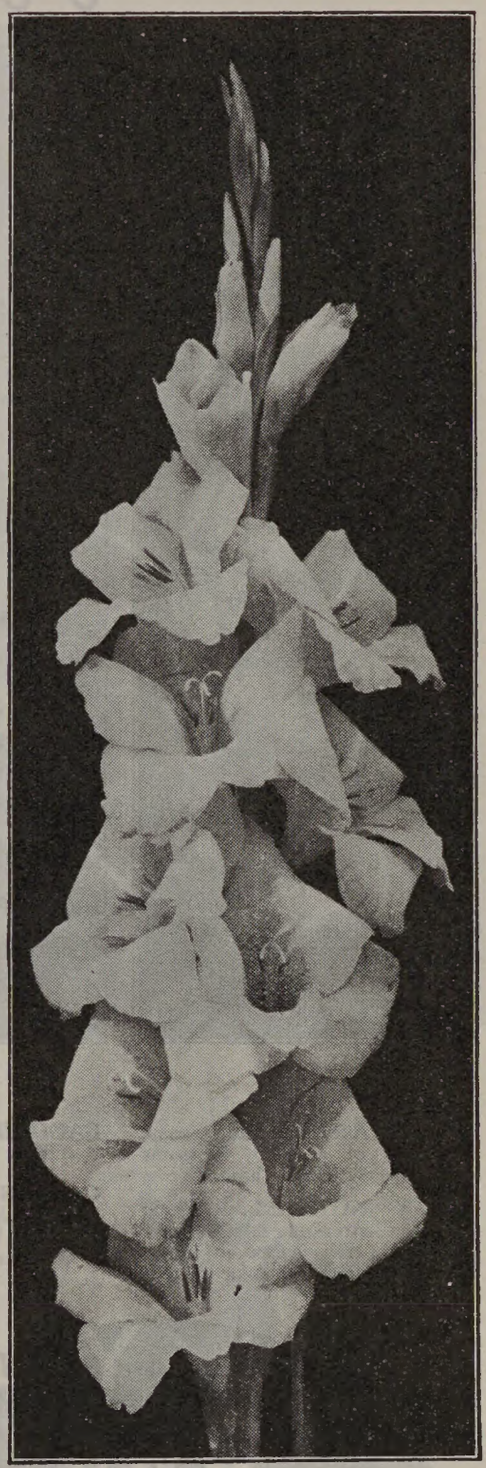
Ten Gladioli--New!



Tyrian Princess



White Spire



Wenonah

Tyrian Princess

The beautiful coloring of this variety reminds us of a dusky Mediterranean Princess. The color is a beautiful dusky cherry-rose laid on in splashes and rivulets over a lighter shade. The throat is beautifully and delicately frosted. Spikes are closely packed but still florets are well arranged. **Prices: 50c each; 2 for 85c; 3 for $1.20; 6 for $2.25.**

White Spire

One of the most unique of white glads, and at the same time one of the most beautiful. The petals are pure frosty white, but look at them closely and you will find faint (oh, so very faint) splashes of pink. Unique also for the arrangement of florets on the spike—instead of being staggered, the florets are in two fairly even rows. **Prices: 75c each; 2 for $1.35; 3 for $1.95; 6 for $3.75.**

Wenonah

No color is more popular in Gladioli than salmon-pink and here is one of the most beautiful salmon-pinks ever brought forth. Wenonah rivals all other salmon-pink glads and has a delight of its own that others do not have. It is splashed with darker colors at the edges and in the throat. 9 to 12 florets open or opening at a time. **Prices: $1.00 each; 2 for $1.85.**

Convenient index on pages 84 and 85.

New!

Never before have we seen a masterpiece such as this. Seventh Heaven is absolutely new—never before offered.

Gladiolus

Seventh Heaven

Mrs. George Kinyon

New this year, 1940—never before introduced—Mrs. George Kinyon's Masterpiece.

Several years ago the famous Glad, Picardy, startled the flower world with its amazing beauty and size. Picardy deserves every bit of its fame but **Seventh Heaven** is destined to outshine it. Picardy is huge flowered and beautiful but **Seventh Heaven** is even greater—florets often measure 6 inches across or more.

The color of Picardy is beautiful, too, but that of Seventh Heaven is amazingly even more beautiful—delicate salmon-rose slightly splashed with deeper color at edges and in the throat—a shading that is really indescribably beautiful. We unfortunately secured Seventh Heaven too late for a color picture but even a color picture could not show its true beauty.

Note the amazing display of florets. Seventh Heaven has 10 to 12 huge ones open or opening at once. We have seen spikes with even more than the one shown here. Grows very tall, straight and strong. A liberal producer of many beautiful spikes.

We have only a very few blooming size Seventh Heaven bulbs this year and only the far-sighted few who order at once will get them. If you want the distinction of having Seventh Heaven in 1940, order at once.

PRICES: Large blooming size bulbs, $3.50 each.

MRS. GEORGE KINYON

Mrs. George Kinyon, who originated such amazing beauties as Wenonah, Emblem of Purity, White Spire, Reflection, So Big, Iosco and many other top-notchers, originated Seventh Heaven. Every year since the American Home Achievement Medal has been offered in Michigan she has won it. Her Gladioli are noted for their amazingly clean, bright colors and beautifully shaped, well-placed florets. Again we say, Seventh Heaven is Mrs. Kinyon's masterpiece. You must order at once.

GUARANTY

We guarantee stock to be just as represented or orders refilled free; we further warrant all stock to be carefully packed and shipped in good growing condition, and if this stock is properly and carefully planted, watered, and cared for, it will grow and give satisfactory results.

We cannot guarantee continuous growth since this depends upon the care you give the plants and also upon your local conditions. However, where failure of plants to grow is due to arrival in poor condition, we will replace the unsatisfactory plants without charge, providing reports are received prior to June 30th

After June 30th and prior to October 1st of the current year, plants will be replaced at half price. No refills after October 1st.

It is mutually agreed that in any event we will not be liable for more than the purchase price of the stock.

Refills per this guaranty will be made during the current shipping season if reports are received in time. Otherwise they will be made during the following season. New! Entirely Different!

Dahlia George Relyea

One of the oddest, most unusual and most beautiful Dahlias we have ever seen. The unusual part is the orchid-white tips. The rest of the Dahlia is flaming orange-sunset with a beautiful tight center of deep orchid. At the base, petals are beautiful apple-green. Again we emphasize the orchid-white tips. They look as if the tips are lighted with tiny spotlights.

DAZZLER

Kellogg's Dazzler, the new improved hardy everblooming Carnation is the heaviest blooming, most gorgeous and largest flowering hardy Carnation ever introduced. Foliage is dark olive-green and each plant produces 20 to 30 strong, 15- to 20-inch blooming stalks supporting flowers in great profusion. 40 to 50 bright crimson flowers open at one time on each plant. The blooms are richly clove-scented, deep crimson in color, and the plant blooms continually from the middle of June to late October. Will bloom all winter if potted and put in medium warm room. Plant grows nearly as large as a bushel basket first season and it's hardy, too; stood 15 degrees below zero without injury. Blooms first year.

Dazzler is the gem of the rockery, the dazzle of the flower garden, the king of the border, and the greatest of all flowers for group planting.

Glorify your garden with **Kellogg's Dazzler,** the brightest red and most dazzling flower of all time.

Pacific Strain Delphiniums

The beautiful color picture of Pacific Delphiniums tells you more than we could say in 10,000 words; however, here are a few things the picture does not tell.

80 per cent Double

When we were first told that these Pacific Strain Hybrid Delphiniums would be 80% double we did not believe it but exhaustive tests on our own nursery actually do prove that at least eight out of every ten of these will be double. Field-marked 100% double Delphiniums sell for 75c each. Now you can order this Pacific Hybrid Strain and nearly every one of them will be double. Note the extremely low prices at the left.

Tall, Strong Flexible Stems

The stems of Pacific Hybrid Delphiniums are not only tall and strong, but flexible and instead of breaking in a strong breeze they spring right back into position. You will have less broken stems with Pacific Hybrids than with any other variety.

Many Colors

Not only are Pacific Hybrid Delphiniums nearly all double, but they come in a larger color range. Colors range from delicate light blue to dark purple as shown.

Full Spikes

Spikes of Pacific Hybrid Delphiniums are closely packed with large, beautiful florets as shown. Each spike is a marvel of beauty.

Hardy!

Pacific Hybrid Strain Delphiniums are perfectly hardy and will come through your winters with no more protection than you give other Delphiniums.

ORDER EARLY! Our supply of Pacific Hybrids is limited. Order early and be sure to get yours. We furnish strong, field-grown plants. Ultimate height 5 feet. Blooms June and later. Like rich soil and sun. Fine for cutting. Assorted colors only. Plant 12 to 15 inches. **Prices at left, top of page.**

White Delphinium

Out of approximately 17,000 Pacific Delphiniums we found only 100 whites, so you can realize their rarity. These are not the weak growing white Delphiniums ordinarily sold, but strong, vigorous Pacific Hybrids marked at blooming time in our fields. We have only an exceedingly limited supply of these rarities, so YOU MUST ORDER EARLY.

(Propagation Rights Reserved)

This new plant is so far superior to most others used in the hardy border that we predict an amazing future for it. Hardy Fuchsia Scarlet Beauty blooms during the dry summer months when other flowers are scarce—it fills in from July to early fall with hundreds of beautiful drooping scarlet flowers, **often about 500 flowers and buds at a time per plant.** The foliage is exceedingly beautiful, too, having a glossy, holly-green beauty from spring until after frosts. Not straggly but very beautifully shaped. Can be trimmed in heights of 15 inches to 3 feet. **Fuchsia Scarlet Beauty is the surprise plant of 1940 and we hope every Kellogg customer will order at least one.**

Established plants start blooming about July 1st and continue all summer. Grow about 2 feet high first year and reach maximum height (3 feet) third year. Thrive in neutral or just slightly acid soil. Like water but are nevertheless **EXCEEDINGLY DROUGHT RESISTANT** when established. Tops die down during the winter like Buddleias but quickly regain height with the opening of spring. Foliage maintains bright glossy green color until after frost.

Hardy Northern Pecans

Pecan trees are ornamental as well as fruitful. Now here are hardy varieties that will grow in the north. Plant Pecans. You'll enjoy them.

Other Nut Trees

McCALLISTER HICAN. A cross between a Pecan and a Hickory. Fruits very young, much earlier than seedlings. Leaves are large, dark green, thick and smooth; light bark makes them fine for ornamental planting. Exceptionally large nuts, crack easily and yield good flavored kernels possessing much of the hickory flavor. **PRICES: Hardy grafted stock, 3 to 4 ft., 1 for $4.50.**

Ohio Walnut

From northern Ohio. A fast grower with very beautiful ornamental effect. Many of our Ohio grafts have nuts the following fall after setting. Nuts are large. Shell thin. Kernel white and plump. Of good quality. An excellent cracking nut; the halves of the kernels usually may be removed whole. Our grafts taken from best producing strain. **PRICES: 3 to 4 ft., 2-year grafts, 1 for $2.50.**

Brilliant New! Long Blooming

We can approximate the color of Flash Rose in a picture but not the amazing, glowing quality. The blossoms almost seem to be on fire.

This new Climbing Rose far surpasses in brilliance any Climbing Rose that has ever been originated. The blooms seem to glow with their own inner fire, the colors glowing and flashing in magical fashion.

Long Blooming

"Flash" starts blooming early in June and flowers open daily for weeks. A very long blooming rose. Color is vivid orange-scarlet with backs of petals yellow suffused with scarlet. The center is gleaming yellow filled with golden anthers. Buds are yellow with scarlet profusion. Many flowers are open at one time, giving a dazzling effect. The picture of Flash shown here does not half do justice to the actual Rose because its shimmering brilliance cannot be shown on paper.

Originated by R. M. Hatton in 1938, Patent applied for.

Stock is limited, so you must order early to be sure of getting yours.

PRICE: High grade, No. 1 budded stock, $1.00 each.
